

BOULTON

SUPER-CLEAN ***FOOD AND PHARMACEUTICAL "SC" RANGE***

For wet or dry screening, sieving, and grading of all types of powders, juices, granulates, pressings, nuts, beans, salts, sugars, spices, tea leaves, crisps, oils, fats, chocolate, cocoa-mass and many more.

- *Unique inboard, overs discharge eliminates side spout crevices with guaranteed 100% material discharge.*
- *25 µm to 25 mm aperture quick change mesh frames.*
- *Quiet operation from polyurethane suspension spring mounts.*
- *304 / 316 L polished stainless steel contact parts as standard.*
- *Crevice free, easy clean design.*

Resonant steel springs with a low damping coefficient and high rebound rate provide the most efficient transmission of the vibratory

forces, resulting in faster mesh coverage with greater through-put rates and low power consumption compared to rubber mounted systems.

<i>Size Code</i>	<i>Diameter (mm)</i>	<i>Mesh Area per deck (m²)</i>	<i>Number of Decks</i>	<i>Power (W)</i>	<i>Centrifugal Force (kg)</i>
SC 1	485	0.18	1 - 2	250	500
SC 2	685	0.36	1 - 2	500	1100
SC 3	845	0.56	1 - 2	500	1400
SC 4	1220	1.00	1 - 2	1150	2500
